

we have a neighbor about a block away that operates a ham radio. every night he gets on it around 700 to 900pm and stays on several hours. when he transmits he comes across on our television and our telephone forcing us not to use them. we have been told by my wifes father that he has had complaints from most all of the 15+ renters he has in this same neighborhood but when ask the gentleman does not reply. is there anything we can do to solve this so he can use his radio and we can watch our tv or use our phone?

thanks,
marc and savon
